

Pathfinders Summer Institute 2025: Acceptance of Scholarship

The Pathfinders Summer Institute 2025 is a signature professional development offering of the Infosys Foundation USA. The Foundation is committed to advancing computer science and maker-focused education for K12 educators across the US, working in partnership with numerous curriculum providers.

Dear Chibitronics,

I am pleased to accept the scholarship from Infosys Foundation USA to participate in the Pathfinders Summer Institute 2025.

By way of this signed letter, I agree to participate fully in the “Start with Art: STEAM Learning with Chibitronics Paper Circuits” course. As part of this acceptance, I understand that I am expected to attend the 40-hour offering of virtual instruction and complete all assignments related to this course.

Further, by way of the signature provided below from my Principal/Administrator/Supervisor, I have the additional authorization to participate and teach this curriculum to students in the coming 2025-26 year.

Thank you for this incredible opportunity to help open doors of learning for my students to participate in the digital economy of the 21st century.
