Light Up the Media Lab

Celebrating 40 years of imagination, invention, and discovery.

Color, collage, and illuminate this image to create your own vision of the Media Lab: past, present, future, or somewhere in between!

In addition to this kit, you will need:
- scissors
- glue stick

Visit this link for instructions, inspiration, and to share your creation:

go.chibitronics.com/ML40

Contains small parts and coin battery
Recommended for ages 8+ or under adult guidance.

Cut out your favorite images or create your own! Glue them to the back of the Media Lab illustration. When you shine a light from behind, your hidden images will appear!
